

Dar es Salaam Institute of Technology

DEPARTMENT OF ELECTRONICS AND TELECOMMUNICATION ENGINEERING

Communication Switching Systems Course

Course Code: ETU07402

Assignment 02

Assignment 02

Beginning in the 1960s, gradual conversion of the basic telecommunication infrastructure from analog to digital working has taken place.

Prepare a report to address the reasons of the digitization of the PSTN, the benefits and drawbacks of such conversion, the basic techniques and any new technologies that enable the digitization, the obstacles in the full digitization of the PSTNs, the current development, and the other related issues.
